Referral pathway for sexual health services in Somerset

Please use the following referral process to access SWISH

- All methods of contraception discussion
- Start review or repeated contraception
- Full testing for STI
- Managing symptoms of STI's
- Treatment for STI
- Partner notification/treatment
- Vaccinations for certain groups
- Pre exposure prophylaxis for HIV for certain groups

General referral pathway targeted outreach team within SWISH from external professional services or organisations

Professional aware of vulnerabilities and a need for contraception and or sexual health in their client or group

Referral for SWISH is made by completing a referral form found at www.swishservices.co.uk/making-referral-tot for the targeted outreach team

Or by completing a SWISH referral form and emailing it to:
swishtoteam@SomersetFT.nhs.uk

On receipt of a referral, The TOT member adds patient to excel spread sheet and check if they have been to SWISH before and add to SWISH electronic patient system

Targeted outreach team nurse/s contacts patient/professional and offer or carry out an initial phone consultation

Contact will be attempted within 48 hours (9-5 Monday to Friday) or next working day if received on a Friday PM

3 attempts are made to contact the patient by preferred method, over 3 days and then if no contact professional will be contacted

If unable to contact patient by phone and agreed a letter may be sent

If patient does not attend or cancels the appointment should be rebooked and the professional involved in making the appointment will be informed

Following a phone consultation a face to face appointment if needed will be made at a location within Somerset nearest to them and follow up if needed arranged

Referral into SWISH Targeted outreach team
